

# Internship / Industrial Development in OIC Countries

Date Posted: February 15, 2017

Closing Date: April 7, 2017

Reference Number	ER-1702
Department	Social and Economic Research Department
Division	Economic Research Division
Location	SESRIC Headquarters, Ankara, Turkey
Duration	8 weeks
Expected Start	May 2017

**Job Description:** The Statistical, Economic and Social Research and Training Centre for Islamic Countries (SESRIC) looks for a PhD student in economics from a reputable university to work with the research team at SESRIC on the preparation of a report on industrial development in OIC member countries. The intern will provide technical assistance to the research team in reviewing the related literature, collecting and analysing the data, and formulating policy recommendations. Special interest in the issue of structural transformation and industrial policy would be an asset.

**Expected Outcomes:** The intern is expected to assist the research team in:

- 1) reviewing industrial development problems and challenges in OIC countries;
- 2) collecting and analysing data on industrial development;
- 3) applying advanced statistical and econometric techniques;
- 4) designing inclusive and sustainable industrial development policies;
- 5) formulating policy recommendations.

#### Basic Qualifications:

- Be enrolled in a PhD program in economics in a reputable university
- Advanced knowledge in data management and analysis
- Proficiency in English
- Knowledge of Arabic and French would be an asset

#### Application Package:

In addition to the standard documents (see <http://www.sesric.org/activities-announcements-detail.php?id=276>),

- Cover letter, highlighting the qualifications to accomplish the internship
- A short essay on the internship question, with around 1,000 - 1,500 words

**Essay Question:** *What is the role of technology and innovation in industrial development?*
